

CANNABIS AT THE UNIVERSITY OF VERMONT

***PROVIDING EXPERT CARE IS WHAT YOU DO.
OFFERING EVIDENCE-BASED, CUTTING-EDGE CANNABIS
RESEARCH AND EDUCATION TO PROVIDERS IS WHAT WE DO.***

The first medical school in the nation to offer a professional Certificate in Cannabis and Medicine for therapeutic use, UVM is proud to help address the increasing demand for research-based and relevant Cannabis education across the country. As a healthcare provider, grow your competitive advantage and be recognized as a knowledgeable and trustworthy professional.

CANNABIS SCIENCE AND MEDICINE PROFESSIONAL CERTIFICATE

Offered through the Robert Larner, M.D. College of Medicine, UVM's 7-week, fully online program examines cannabis history, business, law and policy, plant biology, biological effects on humans, production and safety, pharmacology, and clinical research.

PROFESSIONAL CERTIFICATE IN CANNABIS PLANT BIOLOGY

This 8-week, fully online program covers cannabis chemicals, genetics, agricultural best practices, post-harvest handling and processing, and how cannabis affects the human body through an examination of basic pharmacology and different modes of administration.
